

# SKYWAY

**SPRING BARLEY** Elevate your yield

- + A very high yielding spring barley variety with Full Approvals for brewing and very high specific weight
- + Excellent agronomic characteristics - good lodging and brackling resistance, medium-early maturity and medium height
- + Skyway's high untreated yields reflect its excellent all-round disease resistance, including a very high resistance to mildew

## Breeder

Nordic Seed

## Parentage:

RGT Planet x  
NOS 2105-11

## Classification:

MBC Full Approval  
for Brewing

## AHDB 2026/27 Recommended List data

### Yield and grain quality

UK fungicide treated yield (% controls)	102
East region fungicide treated yield	102
West region fungicide treated yield	102
North region fungicide treated yield	101
Untreated yield (%) treated controls	85
Specific weight (kg/hl)	70.0
Screenings % through 2.25mm	0.91
Screenings % through 2.5mm	2.21

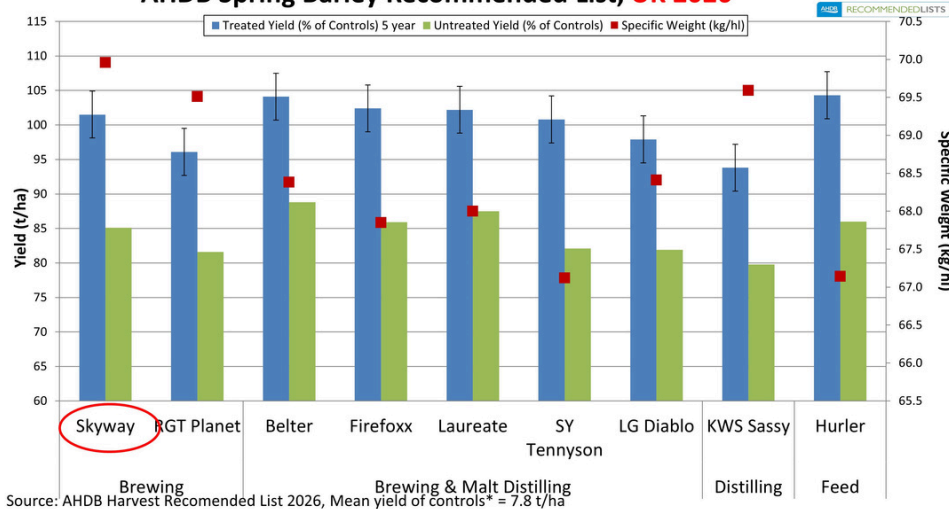

### Disease ratings [] = candidate data

Mildew resistance (1-9)	8
Brown rust resistance (1-9)	4
Rhynchosporium resistance (1-9)	5
Net blotch resistance (1-9)	6

### Agronomic characteristics

Lodging resistance - PGR untreated (1-9)	7
Brackling resistance (1-9)	7
Straw height - no PGR (cm)	74
Maturity (days +/- RGT Planet)	+1

### AHDB Spring Barley Recommended List, UK 2026

## AHDB National Spring barley variety trials: RL 5 Year UK Summary

- Treated yield (% of controls)
- Untreated yield (% of controls)
- Specific weight (kg/hl)

Source: AHDB UK Recommended List 2026-27. The full data sets collected are available on the AHDB Cereals & Oilseeds website at [ahdb.org.uk/rl](http://ahdb.org.uk/rl)

Mean yield of controls = 7.8 t/ha

Controls: Skyway, Laureate, RGT Planet, LG Diablo & Firefoxx
