

WPB ISABEL

Spring Oat

(LW 03W0383-06 x Husky)

SEEDING
THE FUTURE
SINCE 1856

The best combination of yield and specific weight available!

- High yielding husked spring oat
- Best specific weight on the recommended spring oat RL 2021/22
- High kernel content with good screenings

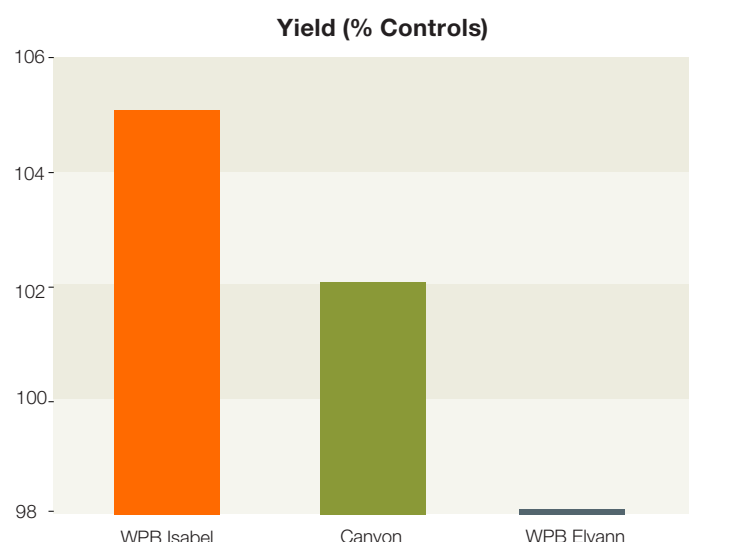

WPB Isabel is the latest addition to the Spring Oat Recommended List 2020/21. From the stable that has already delivered WPB Elyann to the market, this Wiersum line will appeal to growers looking for a high yielding spring oat with excellent grain quality.

It has impressive low screenings, a good kernel content and average maturity, similar to that of Firth.

At 109 cm it is a taller plant type but has very stiff straw gaining a score of [9] without PGR. Couple this with a good balanced disease resistance and you have a variety that will be liked equally on-farm and in the oat mill.

| WPB Isabel | |
|----------------------------|-------|
| Yield (% treated controls) | |
| UK treated | 105 |
| UK untreated | 88 |
| Disease | |
| Mildew | 5 |
| Crown rust | 5 |
| Quality Data | |
| Kernel content (%) | 75.9 |
| Sp.Wt (kg/hl) | 54.5 |
| Screenings <2.0mm | 2.0 |
| Agronomy | |
| Lodging (-PGR) | [9] |
| Height (cm) | [109] |
| Ripening (days +/- Firth) | 0 |
