

KWS ORWELL

Winter Barley

KWS B105 x KWS Salsa

SEEDING
THE FUTURE
SINCE 1856

The UK's most popular winter barley!

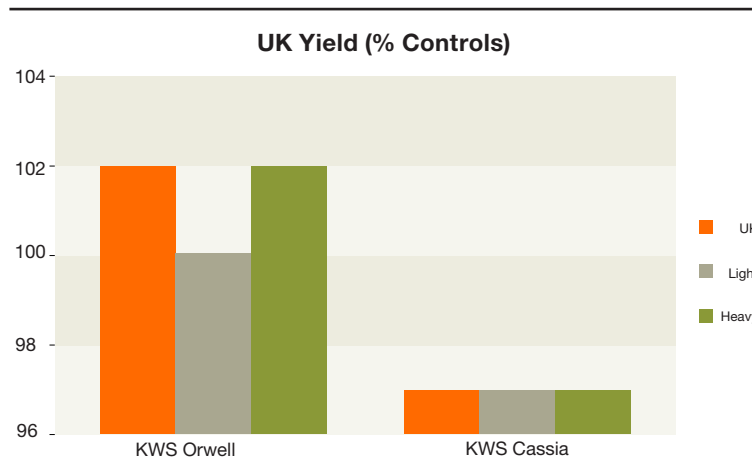

- Highly consistent across regions
- Stiffest 2-row variety
- Good combination of wet weather disease resistance

KWS Orwell delivers a step up in straw strength and yield over existing 2-row feed varieties.

KWS Orwell currently yields 5% higher than KWS Cassia and is the leading 2-row feed variety. It performs consistently across all regions of the UK.

It is short and stiff, with good all-round wet weather disease resistance scores, other than for mildew which needs watching.

Good physical grain quality and low screenings are two other key characteristics of KWS Orwell.

KWS Orwell	
Yield (% treated controls)	
UK	102
East	102
West	102
North	101
Disease	
Mildew	3
Yellow Rust	[7]
Brown Rust	7
Rhynchosporium	6
Net blotch	5
BaYMV	R
Agronomy	
Screenings (% through <2.25mm)	2.0
Screenings (% through <2.5mm)	6.3
Resistance to lodging	8
Maturity (+/- KWS Orwell)	0
Height (cm) with PGR	84
Sp.Wt (kg/hl)	67.9
