RGT Saki
Recommended List 2020

Variety Data: RGT SAKI

VARIETY OVERVIEW:

This very high yielding, newly recommended Group 4 variety exhibits outstanding disease resistance. It is unique in featuring excellent treated as well as untreated yields, something that has defied plant breeders until now. This, together with OWBM resistance, relatively short straw and good grain quality, helps RGT Saki deliver consistent performances across all UK regions, rotational slots and soil types.
