

RUBIERA KWS

Ultra Early: FAO 160

SEEDING
THE FUTURE
SINCE 1856

The silage athlete!

Characteristics / Quality

- Class leading DM yield – (94%) across all sites
- Rapid early vigour (7.0)
- Semi dry down for low effluent risk
- Full cob sheath coverage
- Excellent starch (36.2%) and ME content (11.88 MJ/Kg)

Data source: NIAB Forage Maize Descriptive List. Second choice varieties for less favourable sites (2021).

“ **RUBIERA KWS** combines high DM yields with excellent ME and starch content owing to its very high grain content.
